

# Frontiers in Microscopy & Microanalysis

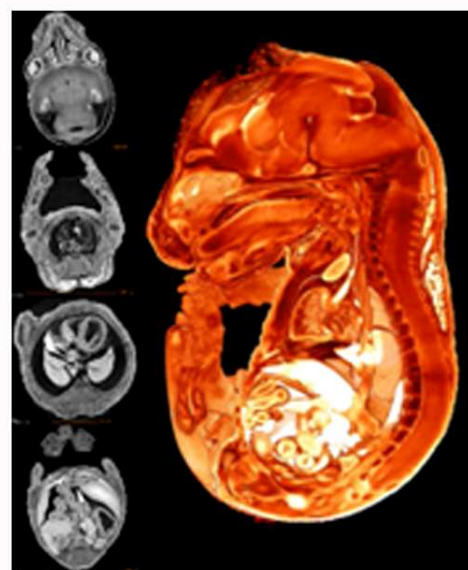

## Supporting Materials Research to Manufacture the Future

### ZEISS Microscopy

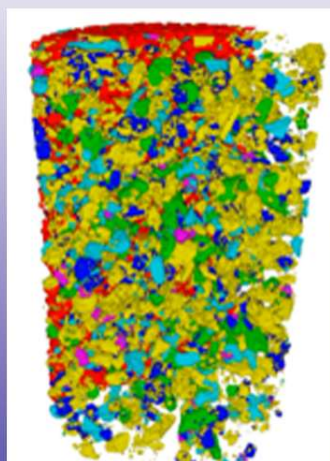

Presented by:  
Kashmira Raghu, ZEISS Microscopy  
Terence Da Silva, ZEISS Microscopy

Join us for a seminar that will answer how X-ray microscopy can be used to unlock your research potential. The presentation will cover the Zeiss Versa X-ray microscope and its research applications.

Utilise microscopy to enhance your materials research:

- Nondestructive 3 dimensional imaging of your sample
- Correlative microscopy
- Raad – Resolution at a distance

The University of Queensland/CMM & ZEISS Microscopy  
Location: AIBN Bldg. 75 Level 1 Seminar Room  
Zoom: <https://uqz.zoom.us/j/81244112854>  
on Thursday 8<sup>th</sup> September 2022; 15:00-16:00 (AEST)
