

APMC2025

Brisbane, Australia

JOIN US IN BRISBANE!

The Australian Microscopy and Microanalysis Society (AMMS) is honoured to host the 13th Asia Pacific Microscopy Congress 2025 (APMC2025) in Brisbane, Australia from Feb. 2nd to 7th in 2025. Embedded in Asian & Australian Indigenous Culture and Tradition, the Committee of Asia Pacific Societies for Microscopy (CAPSM) will present APMC2025 to establish a balanced programme of light, ion and electron microscopy and imaging spectroscopy in physical, material and life sciences. Microscopists, scientist, manufacturers, and suppliers will come together to share new instrumentations, techniques, workflows, applications, and technologies.

The conference will include oral and poster presentation sessions, trade show and workshops, pre- and post-conference workshops, and social events.

Call for interest groups, pre/post congress workshop topics

Conference Themes

- Physical Sciences
- Bio/Life Sciences
- Material Sciences
- Interdisciplinary
- General
